

## Simons Postdoctoral Fellowship at Stanford University

The Department of Mathematics at Stanford University is seeking applicants for one Simons Postdoctoral Fellowship at Stanford University. This appointment is for a term of three years, beginning in September 2010. Areas of interest include, but are not limited to, (1) analysis; (2) algebra, number theory, or logic; (3) geometry or topology; (4) combinatorics; (5) applied mathematics or probability; and (6) financial mathematics.

To be eligible for a Simons Postdoctoral Fellowship, the candidate must have received his or her Ph.D. during the academic year immediately preceding that in which the fellowship would begin (i.e., 2009–2010). There is no further restriction, on nationality or on any other basis. Once awarded, the Fellowship is non-transferable. Any changes in Fellowship status should be reported immediately to the Foundation.

Candidates are expected to show outstanding promise in research, as well as strong interest and ability in teaching. This position carries a teaching requirement of four one-quarter classes (including one graduate class) over the three-year period.

This position carries a 12-month salary of \$70,000 for the first year, with a \$7,000 supplement for research support. For the succeeding two years, there will be a 3% salary increase each year.

Applicants should send curriculum vitae, a list of publications, a brief statement of research interest, and names and addresses of three references. For full consideration, materials must be received by December 15, 2009.

Stanford University is an equal opportunity employer and is committed to increasing the diversity of its faculty. It welcomes nominations of, and applications from, women and minority groups, as well as others who would bring additional dimensions to the university's research and teaching missions.

PLEASE APPLY THROUGH [mathjobs.org](http://mathjobs.org)

If necessary, recommendation letters may be sent to Simons Postdoctoral Fellowship Search Committee, Department of Mathematics, Stanford University, Stanford, CA 94305-2125 by December 15, 2009.
