

Young persons workshop on String Topology and the Topology of Moduli Spaces

**Mathematics Research Center
Stanford University
March 24–27, 2008**

SPEAKERS:

- ***Mohammed Abouzaid***
(MIT)
- ***Søren Galatius***
(Stanford University)
- ***Veronique Godin***
(Harvard University)
- ***Paolo Salvatore***
(Università degli Studi di
Roma II “Tor Vergata”)
- ***Bernardo Uribe***
(Universidad de los Andes)
- ***Nathalie Wahl***
(Københavns Universitet)
- ***Craig Westerland***
(University of Wisconsin)

TITLES:

- *“Applications of string topology to symplectic geometry”*
- *“The topology of cobordism categories”*
- *“Graphs in the study of moduli spaces and string topology”*
- *“Generalizations and applications of string topology”*
- *“Orbifolds and stringy topology”*
- *“Stability theorems in the homology of mapping class groups”*
- *“Homotopy theoretic aspects of string topology”*
